Where High "Balsa" Prices Fly Low!
BalsaDepot was created by Dennis Clayton in 2025 in an effort to help the modeler afford balsa again after so many years of highly inflated prices. We also believe in great service and quality to keep customers & gain more. We plan on adding to our product line as time goes on to fully service the modeler in every way possible from Wood to Laser Cutting.

Thank you, Dennis Clayton

"NG-Light Ply"
NG (Next Generation) Popular Light Ply / Thickness .040" Tolerance - Width & Length Tolerance .25"

Our NG-Light Ply is the next generation of light ply with similar characteristics & weight as traditional Italian Lite Ply at a better price point. This plywood is typically seen in today's ARF aircraft. Used for fuselage sides, formers & doublers. Laser cuts very good.
